**REJECT NORMALIZATION OF THE ZIONIST ENTITY AND ITS AGENTS. EMRACE THE THAWABIT AND ALL FORMS OF PALESTINIAN RESISTANCE.**

**NOTES FROM THE RESISTANCE**

**THE THAWABIT:**  
(fundamental principles of the Palestinian struggle created by the PLO in 1977)

- Reject colonialism in all its manifestations.
- Denounce normalization in all its forms.
- Support resistance against the Zionist movement by any means necessary.
- Free Palestine from occupation by soldiers and settlers. River to Sea with Al Quds as her capital.
- Secure right of return for all Palestinians.
- Preserve Palestinian self-determination and self autonomy.

**WALID AL-WAWI ON THE THAWABIT**

"To be principled:

- is to understand that an actor's effort is solidly intertwined with the non-negotiable state of the process in which the actor's role is to be a potent and efficient cog in the machinery of liberation that can only work in unity and on a solid foundation
- is to uphold the Thawabit at all costs and call out any individual who tries to compromise their validity

The oppressor seeks to compromise our Thawabit by funding unprincipled individuals "normalizers" who infiltrate our circles and blur our vision for justice towards accepting and normalizing our oppressor.

**normalization:** validating the Zionist colony's existence by endorsing or collaborating with an individual, group, entity or ideology that represents any form of "Israeli" aspirations or sentiments.

Normalizers instill a sense of hopelessness that immobilizes and pushes us to compromise on our demands... Spot the flags:

- Portraying Palestinians as weak, emphasizing suffering over resilience.
- Utilizing dialectal language to instill helplessness and provoke sympathy rather than action
- condemning armed resistance to shame Palestinians into suffering and silence
- Emphasizing western identity politics to distract from the unified goal of our liberation
- Adopting two-state terminology for Palestinian land (Eg. WIE Jerusalem instead of occupied Jerusalem, "El Aviv" instead of occupied Yafa)

**AL-AQSA MARTYRS BRIGADES**

**"WE WILL EMERGE UPON YOU FROM WHERE YOU LEAST EXPECT IT."**

**DEPUTY HEAD OF HAMAS SHEKH SALEH AL-AROURI ON DAY 1 OF THE AL-AQSA FLOOD OPERATION**  
07/07/2023

What started is not just an operation, but a battle that will expand, escalate, and deepen.

The battle has a goal: the freedom of our people and the liberation of our sanctities. Therefore, the battle continues, escalates, until achieving the victory with the deserved freedom of our people.

We will not continue to accept the desecration of our sanctities, or the imprisonment of our prisoners in jails, or the continued siege of Gaza.

What we have in our hands will free all the prisoners from the occupation jails.

There is a large number of "Israeli" captives, and there are senior officers among the captives. The battle is still at its peak, and the freedom of our captives in prisons is imminent.

We captured senior officers from the occupation army, and we will capture more until the prisons are emptied.

The resistance is prepared for the worst scenarios, including a ground invasion. An "Israeli" ground invasion would be the best scenario for us to settle the conflict against the enemy.

We have information that the occupation army was preparing, after the holidays, to launch a major aggression against our people in the West Bank and Gaza. The battle is coming, and the aggression began with the desecration of the sanctities and the enemy's intention to attack Gaza and the West Bank.

We are ready to defend the dignity and freedom of our people.

We hope that the resistance will cover all of Palestinian land, and God willing, there will be effective solidarity and a strong stance from both the Arab and Muslim nations.

aggression against defenseless innocents.

We also renew our invitation to the free people and those with living consciences around the world to continue and escalate their global public movement, rejecting the occupation's crimes, in solidarity with our people and their just cause and legitimate struggle, calling for an end to the aggression and the genocide against children, women, and civilians. Let us all unite tomorrow, Friday, and in the coming days, expressing our solidarity with Gaza and Palestine, against the crimes of the occupation, until the aggression stops.

In the face of the continued Nazi occupation's genocide and the horrific massacres committed by the Zionist occupation over two months against more than two million Palestinian citizens, we call upon the masses of our Arab and Islamic nation, its scholars, men, institutions, and active forces to come out in roaring crowds tomorrow, Friday, and all the coming days in every city, capital, and square, to actively participate in solidarity marches and demonstrations with our people in the Gaza Strip, pressuring for the introduction of relief, humanitarian, and medical aid to all parts of the Gaza Strip, and to stop the Zionist aggression against defenseless innocents.

**ISLAMIC RESISTANCE MOVEMENT - HAMAS**  
IN THE NAME OF ALLAH, THE MOST GRACIOUS, THE MOST MERCIFUL

**A CALL TO OUR ARAB AND ISLAMIC NATION AND THE FREE PEOPLE OF THE WORLD: LET US ALL UNITE WITH GAZA AND PALESTINE UNTIL THE AGGRESSION STOPS.**

"I hope the media stops showcasing the Palestinian as someone begging for the world's sympathy, prayers and money. I hope they portray us as freedom fighters in order to gain fighters and partners in the struggle"

**FREE AHMAD SA'ADAT!**

Born in 1953, Ahmad Sa'adat is a giant in the Palestinian political struggle. Sa'adat joined the Palestine national movement in the late-60s as a young student. In 2001, after decades of fighting and being subject to imprisonment numerous times, Sa'adat was elected Secretary-General of the Marxist-Leninist Popular Front for the Liberation of Palestine (PFLP)—a group that has counted the likes of Leila Khaled and Ghassan Kanjani amongst its ranks. In 2002, Sa'adat was abducted by the Palestinian Authority (PA), a political mechanism that exists to acquiesce and collaborate with the Zionist enemy while fraudulently presenting itself as the rightful "representative" of the Palestinian people. Several years later, in 2006, Sa'adat, alongside a number of other prisoners, were kidnapped from a Jericho prison by the Zionist occupation.

Today, Sa'adat is serving a life sentence. However, the remains of solidarity with the ongoing struggle, lending his support to other prisoners, refers to as "the general of PFLP prisoners." The Zionist enemy does not want to see the day Sa'adat is liberated, for it would change the entire political landscape of Palestine—bringing the Zionists ever closer to extinction. But we know Sa'adat, alongside 11,000 other Palestinians being held in Zionist prisons, will soon return home. Long live Ahmad Sa'adat! Long live the PFLP! Long live the Palestinian armed resistance!
